

ILLINOIS RIVER TRAGEDY COSTS OVER 100 LIVES

Divers Rapidly Recover Corpses—Crowds at Pekin Morgue.

PEORIA, Ill., July 6.—With two government inspectors aboard the Steamer Lancaster, a coal company boat, careful watch was kept tonight over the wrecked Steamer Columbia and its cargo of dead during a storm which struck this vicinity. The storm broke shortly after 9 o'clock, sweeping with almost hurricane velocity over Peoria and fears that the sunken steamer would break up were expressed, but communication with a farm house near the wreck brought word that the wind there was no strong, and that the boat was breaking up. At the wagon bridge at Pekin a lookout was being kept for any bodies that might come down the river and for wreckage from the lost excursion boat.

May Have Trouble.
Pekin, Ill., July 6.—"We have sensed trouble and made our arrangements accordingly," said O. W. Frederick, captain of the Pekin unit of the home guard to-night. "It is likely it will be necessary to close all saloons before the night is over. Many residents of this city were victims of the disaster and our men are angry. They believe the crew of the Columbia had been drinking and were negligent."

While stretcher bearers carried bodies up the main street tonight to the morgues, scores of women and children, most of them in tears, lined the curbs, trying for a glimpse of lost relatives. Some were in the distance, a cornet playing "Nearer My God to Thee" and as each additional body was brought up the noise in the saloons increased.

Most of Dead from Pekin.
At dusk more than sixty bodies had been brought down the river and placed in the morgues for identification. Virtually all were from Pekin and a majority were women and children. The bodies were, for the most part quickly identified.

Condemned 15 Years Ago.
Old time river men were being interrogated tonight by officials investigating the disaster in an effort to learn the condition of the sunken steamer, which they asserted was condemned fifteen years ago. They declared the Columbia was placed on the ways for overhauling a few months ago but little was done toward repair with the exception of painting and interior decorating. The vessel was launched at least forty years ago according to local river men.

Family Perishes Together.
When the fate of the boat seemed sealed, according to witnesses Clyde Wither, a Pekin man, embraced his wife, then his two children and the little family perished, clasped in each other's arms. Their bodies have been recovered. In the hands of the body of another man, found late today was a quantity of his wife's hair. His attempt to save her failed and her body was brought up shortly after the searchers found her husband's corpse.

Escapes Thru Window.
"When the crash came the musicians in the dance hall rushed to the windows," said William Newman. "I yelled at them and induced them to resume playing. Suddenly the boat swung sharply about and in an instant we were flooded. My feet soon touched the floor again and I pushed up so that my head was above water. Then I broke a window, passed out my dancing partner and with the aid of Ben Murphy, another passenger succeeded in passing out a few more women and children. The dead were thick in that dance hall."

Sixty Three Recovered.
Peoria, Ill., July 6.—With sixty three bodies recovered and the total number of dead tonight estimated at 100 to 150 persons, government, state and county officials began searching inquiries into the cause of the wreck of the excursion Steamer Columbia last night.

Survivors have charged that the big steamer carrying 500 passengers on the excursion trip from Peoria to Pekin, Ill., was driven against a sand bank scarcely ten feet from shore and about five miles south of Peoria during a heavy fog. First reports were that the craft had struck a snag or submerged log.

While the orchestra continued to play on the dance floor, which proved a death trap to scores of the two hundred dancers the vessel it was said backed into deep water where it suddenly broke in two and immediately settled on the bottom of the river with the pilot house and part of the superstructure appearing above water. After the survivors had been cared for it was found impossible because of the darkness to continue the search for bodies and this was halted until daylight. At sunrise scores of volunteers workers hacked at the wreckage while

BULLETIN.
WASHINGTON, July 6.—President Wilson vetoed the annual agricultural appropriation bill because of the rider agreed to by both senate and house today fixing the government minimum guaranteed wheat price at \$2.40 a bushel. This information was transmitted to Chairman Lever of the house agricultural committee today thru Postmaster General Burleson. Just before Speaker Clark had signed the bill preliminary to sending it to the white house.

The homes of practically all of the victims were either in Pekin or Kingston Mines, a mining settlement about six miles south of Pekin.

Out of the first fifty three bodies checked at the Pekin morgue only seven were men. Six were babies. Early this evening Chief of Police Smith of Pekin declared that the list of dead will reach 150.

Captain L. A. Collins, of Camp Bradley, in charge of the rescue work at the wreck said tonight that all bodies had been cleared from the dance floor but that he expected to find more on the lower floor where it was impossible for the divers to reach them without the aid of wrecking tugs which were on their way from Chicago. He said he thought that the list of dead would be more than 100.

FARMER ACCIDENTALLY SHOOT HIS WIFE

DUBUQUE, Ia., July 6.—Fred White, a Jackson county farmer, is under the influence of a powerful drug to prevent him carrying out his threats to take his life as a result of the accidental shooting of his wife late Thursday night. Mr. and Mrs. White, with their little daughter, were crossing the field, Mr. White carrying an automatic shotgun. In some manner the full load entered his wife's head, blowing it off. The Whites have lived in this vicinity for years and their home life was said to be an especially happy one.

NEED NEW MEN FOR AUGUST CALL

STATE NOW HAS MANY MILITIA ORGANIZATIONS

Troops At Command of Governor Number Nearly Twenty Thousand

SPRINGFIELD, Ill., July 6.—With Illinois pouring out her young men for military service overseas, state military authorities have not overlooked the need of an adequate citizen soldiery for preservation of law and order at home. This is made evident in a comprehensive report just submitted to Governor Frank O. Lowden by Adjutant General Frank S. Dickson and Lieutenant Governor John G. Oglesby, chairman of the state council of defense.

In addition to three national guard regiments of infantry, according to this report, there are now in service fully armed and equipped six infantry regiments of the Reserve Militia ready to respond instantly to the governor's call for strike or riot duty. A seventh Reserve Militia regiment is in process of formation. Besides these effectives, there are shown to be seventy-seven units in the "depot organization" made up of enlisted men uniformed and drilled, but not yet supplied with arms. The report also indicates some seventy odd units of the state council of defense voluntarily training corps, uniformed and drilled, from which the depot brigade draws.

Troops Run To Good Total.
When the immediate plans are completed, the adjutant general declares, the state will have in the national guard and the Reserve Militia a total of 8,020 citizen soldiers armed, equipped and drilled. To supplement these troops, he states, there will be in the depot brigade of the Militia Reserve 11,000 men, making a total of 19,020.

Under the statutes governing the formation of military organizations, companies and troops from the depot brigade to the Reserve Militia proper will go from the jurisdiction of the state council of defense and will become amenable to the orders of the governor acting thru the adjutant general.

All of the brigade and regimental commanders of the Reserve Militia are men of tried military experience. Several of them served in the Spanish-American war and others were on the border in the latest brush with Mexico.

One of the prime considerations in the organization of a mobile citizen soldiery, as voiced by Governor Lowden and others, was to be ready to maintain respect for the law and to discourage activities of these few persons unfriendly to the nation's war aims. With this strong military arm, the governor is prepared to carry into execution quickly his threat that martial law will be declared in communities where civil authorities are unable to cope with Pro-Germanism and its attendant outbreaks on the part of loyal citizens.

Discourages Pro-Germanism.
"Our old national guard was mobilized in the federal service and now is across the seas," said Governor Lowden. "The new forces which we have since organized, and which are thoroughly equipped, armed and trained, exceed in number our entire national guard when diplomatic relations with Germany were broken. The presence of this force in every part of the state has been of incalculable value in discouraging Pro-Germanism. The only argument that moves the genuine Pro-German is military force; that is what makes him Pro-German; he understands the symbolism of the soldier's uniform."

The national guard or the Reserve Militia has not been called to put down anti-German disturbances, but officers on many occasions have been sent quietly into sections where trouble threatened with the result that outbreaks have been forestalled, according to Adjutant General Dickson.

In preventing public disturbances, every member of every state military unit is relied on to keep his superior officers informed of trouble. Further than this, sheriffs have been informed by Governor Lowden that failure on their part to keep order will mean state military intervention.

The Reserve Militia is divided into two brigades, the first four regiments with headquarters in Chicago, under command of Brigadier General Leroy T. Stewart, succeeded by Brigadier General Edward C. Young, who removed to New York to reside; and the fifth and sixth regiments under command of Brigadier General Frank P. Wells, of Springfield. The seventh regiment will be a part of the second brigade when organized, and other probably from southern Illinois will be included to round out the brigade.

BULLETINS

MANCHESTER, N. H., July 6.—The strike of operatives in the Amoskeag and Stark Cotton Mills was settled today on terms similar to those arranged in the case of the Lowell strike yesterday, the manufacturers agreeing to pay the increase of 15 per cent in wages demanded by the strikers. The increase will be paid from July 17. Union leaders guaranteed not to call another strike during the war.

WASHINGTON, July 6.—City officials of East St. Louis, Ill., were severely criticized and the conduct of Colonel Tripp, an Illinois National Guard officer, was characterized as reprehensible in a report on the East St. Louis race riots last year which was submitted to the house today by Representative Johnson of Kentucky, chairman of the special congressional committee appointed to investigate the outbreaks.

WASHINGTON, July 6.—Nominations of eight brigadier generals to be major generals in the national army and of forty-one colonels to be brigadier generals were confirmed tonight by the senate.

WASHINGTON, July 6.—Appointment of Major B. H. Gitchell, national army, as chief of the industrial relations section of the aircraft production bureau was announced by the war department. He succeeds Charles P. Neill, chairman of railroad board of adjustment, No. 1.

WASHINGTON, July 6.—The twelve billion dollar army appropriation bill was completed late today by congress and now goes to the president. The conference report on the measure was approved by both the house and senate after only brief debate.

LONDON, July 6.—The cornerstone of the first club house the American Knights of Columbus will erect in England was laid today in the church yard of Westminster Cathedral. Cardinal Bourne blessed the stone and Monsignor Barnes and representatives of the Knights of Columbus committee participated in the ceremony.

LAWTON, Okla., July 6.—Lieutenant Charles L. Cone, pilot, was killed and a student flier seriously injured when their machine gun plane side slipped into a tail spin a height of 500 feet over the machine gun targets eight miles south of Post Field, Fort Sill, today. Cone's home address and the name of the injured student and other details of the accident were withheld by military authorities.

CLEVELAND, O., July 6.—More than \$12,000 was realized for the benefit of the soldiers' athletic equipment fund at a patriotic boxing show held here today. The attendance was close to 8,000. All the boxers donated their services. President James C. Dunn, of the American League club donated the use of League Park.

DUBUQUE, July 6.—Acting on the recommendations of Dr. Rosewood of Rochester, Minn., supreme effort to check the epidemic of infantile paralysis here is being made. City officials today issued an order closing all theatres indefinitely and the visiting nurse association has decided to close its fresh air camp until the disease has been adequately checked. Sunday schools and playgrounds will be closed. An additional death was reported on Saturday to the state health office and an attaché of that office is expected in the city to assist local officials. The total deaths now number eight, out of the thirty cases reported.

BERLIN WAR OFFICE ISSUES STATEMENT

BERLIN, July 6.—via London. The following communication was issued today from general headquarters: "Attempts of the enemy to attack west of Larnemark failed. In the battle sector south of the Somme the artillery activity continued with increased violence throughout the day and in the evening it revived also on the front of the other army groups. Behind the line the enemy made no noteworthy gains and the zone of the southwest of Rheims there was increased firing activity at intervals. Strong advances of the enemy against the Clignon sector were repulsed. There were reconnoitering engagements in the Champagne."

The Clignon river sector referred to in the foregoing German official statement is held by the American forces. Both the Americans and the French on their left recently have gained terrain and taken prisoners from the Germans there.

ARTILLERY ACTIVE.
London, July 8.—German artillery was active last night in the region between Villers Bretonneux and the Acre, north of Amiens, where the Australians assisted by Americans have recently gained valuable ground, according to today's war office report.

TO BE RELEASED.
Moscow, Thursday, June 29.—(By The Associated Press)—Leo Kamenef, Bolsheviki ambassador to Austria-Hungary who was imprisoned and held as a hostage by the Finnish White Guards, is to be released, according to the evening newspapers.

MAJOR MITCHELL KILLED BY FALL FROM AIRPLANE

Former Mayor of New York Meets Death in Scout Plane at Gerstner Field Near Lake Charles, La.

Lake Charles, La., July 6.—Major John Purroy Mitchell, former mayor of New York City and an officer in the aviation section of the signal corps was killed at Gerstner Field today when he fell from a single seater scout plane at a height of 600 feet.

Major Kirby, commanding officers at Gerstner field said it is a rule that all fliers be fastened in the planes by a safety belt but whether examination of the machine indicated that Major Mitchell had failed to do this or that the belt broke was not stated.

Mrs. Mitchell at Field.
Gerstner, Texas, July 6.—According to officials at Gerstner Field, near Lake Charles, where Major John Purroy Mitchell was killed today, Major Mitchell was in a single seater scout machine and had been in the air for about half an hour. The machine fell 600 feet in an inverted section of the flying field.

Officers said they could not determine the cause of the accident. Mrs. Mitchell was at Gerstner Field but did not witness the accident. She will accompany the body to New York tonight.

Unusually Daring Flyer.
New York, July 6.—John Purroy Mitchell, killed in an aviation accident today, became a flier for the army after having been defeated last fall for re-election as mayor of New York. He had served one term as the chief executive of the country's biggest city, the youngest mayor ever elected to that office. On July 19 he would have been 32 years old.

Major Mitchell went into army service with some military training, having taken the course at Plattsburg while he was mayor. Upon joining the aviation corps he was transferred to San Diego, Cal., where he became a full fledged flyer. He was frequently mentioned as having shown unusual daring.

Dropped From Pilot's Seat.
Lake Charles, La., Major John Purroy Mitchell, former mayor of New York, killed today when he fell 600 feet from his airplane which he was riding dropped from the pilot's seat and plunged downward while his plane skimming without a pilot for nearly half a mile according to statement tonight by officers at Gerstner Field near here. An examination of the wrecked machine developed tonight that the safety belt was unfastened at the time of the accident causing Major Mitchell to fall from his seat as the plane went into a nose dive.

GERMAN AMBASSADOR TO RUSSIA MURDERED

General Count Von Mirbach Is Assassinated at Moscow, According to Berlin Report.

Paris, July 6.—General Count von Mirbach, German ambassador to Russia has been assassinated at Moscow, according to a Berlin report received by the Havas Agency. Two unknown persons were involved in the crime.

Two unknown men asked for an audience with the German ambassador this morning then attacked him wounding him with shots from a revolver. They followed this by throwing grenades. Von Mirbach died almost immediately. The assassins fled and have not been arrested.

Basel, July 6.—By The Associated Press.—Obtaining admittance under false pretenses two unknown men entered the private office of Count von Mirbach this morning. A short discussion ensued and then revolver shots were heard, followed by explosions of hand grenades.

The Ambassador died almost instantaneously. The assassins escaped and have not yet been arrested.

General Count von Mirbach has been active in negotiations between Germany and the Bolsheviks. A despatch from Moscow dated Thursday June 20 said that Count von Mirbach was that day successful in obtaining the release of six Finnish officers detained by Russia in exchange for Leo Kamenef, Bolsheviki ambassador to Austria-Hungary, who had been held as hostage in Finland.

Count von Mirbach formerly was German minister to Greece. The Bolsheviki government consented to his information as ambassador to Russia last April.

U. S. COTTON CORPORATION
New Orleans, La., July 6.—Establishment by the government of a corporation to be known as the United States Cotton Corporation with power to buy for the account of the allies by President Wilson will be recommended by a special committee consisting of one banker and one cotton producer from each of the states of the cotton belt to congress. Resolutions to this effect were passed at a conference of cotton states bankers and producers.

COMPLAINT AGAINST PEN CO.
Washington, July 6.—Fixing of resale prices and refusal to sell to customers who would not agree to maintain such prices was charged to the Eastern Book Store Manufacturing Company in a complaint issued today by the federal trade commission.

ITALIANS DRIVE AUSTRIANS BACK: TAKE 400 CA.

Diaz' Troops Clear Invaders Out of Terrain Near Mouth of Piave

(By The Associated Press.)

Italians have cleared the Austrians out of a very considerable part of the terrain near the mouth of the Piave, between the new and old beds of the river. In hard fighting the Austrian resistance was broken in the area close to the Adriatic. General Diaz' troop driving the invaders completely out of the contested district and across the new bed of the river from Grisola to the sea. The distance of approximately five miles. Four hundred of the enemy were taken prisoner in the fighting.

Vienna admits a loss of ground here, conceding that the Austrian advanced forces were driven back on their main body. In the northern part of this low-lying sector, northeast of Capo d'Isola, where the Austrians, although driven back, are still west of the stream they rallied their forces and counter-attacked in the hope of regaining some of their lost terrain. General Diaz' troops stood their ground however, and repulsed the enemy thrusts with loss. Except on the Italian front the closing days of the week witnessed little fighting of an intensive nature anywhere. For the moment the allied plan of local thrusts in the Franco-Belgian area, calculated to upset such dispositions for a new attack as the Germans might be making on any of the numerous fronts involved showed no fresh development. Only the artillery and the aviators and raiding parties were busy.

There are nothing but compliments for the Americans upon the occasion of their first appearance in attack side by side with British troops. To the Austrians who formed the major portion of the force which carried out the brilliant Fourth of July attack on the Amiens front northeast of Villers-Bretonneux is conceded the larger part of the credit. The American troops had come in for the big part for the not unimpaired they took in the fight which the village of H. important sections of ground in the vicinity were won and retained.

Details of the American valor indicate that in spirit and effectiveness in back the enemy they were excelled by the traditionally trained, seasoned veterans in company they received their baptism of fire. Their losses are reported to have been extremely light.

STATE NOW HAS MANY MILITIA ORGANIZATIONS

(Continued from Page 1)

Birth of the Reserve Militia are required to take an enlistment oath covering a period of two years and to submit to discipline and training. Officers and men are subject to call of the governor in which case they will receive such pay and allowances as are received by national guardsmen when in service. The law provides also that no expense for equipment or maintenance of the Reserve Militia shall be incurred by the state which, however, furnishes arms for use by the men. The age limits are 28 and 55 years.

In addition to the six Reserve Militia regiments and the seventh in process of formation, there is the First Separate Battalion, I. M., with headquarters at Chicago, commanded by Major John Marshall. This unit is made up of Companies, A, B, C and D, besides a supply company and a medical corps.

Relating what has been accomplished thus far in the building of a state military machine, Adjutant General Dickson said:

"In line with the Governor's proclamation, the state council of defense tendered to the adjutant general a number of voluntary training units from which these have been constituted six regi-

ments of infantry with a seventh regiment in process of organization. All of these were tendered completely uniformed. There remained the proposition of arming them. We have in the state received from the federal government sufficient number of rifles of the Krag Jorgensen and the new Russian rifle type to arm ten regiments of infantry. Of this supply the 9th, 10th and 11th regiments are now armed and also six reserve regiments with the sufficient surplus to arm the 7th regiment when its organization shall have been completed.

Many Voluntary Units.

"It was evident that after the organization of seven regiments of Reserve there yet remained a great number of voluntary training units thruout the State that desired inclusion in the Militia Reserve organization. Therefore, the Governor issued a second proclamation on March 4, 1918, calling for additional 11,000 Militia Reserve. Following this the State Council of Defense thru its military committee tendered and are yet tendering to the adjutant general voluntary training units from different sections of the State.

"It being obvious that the State could not at present secure arms in greater number than those indicated above on hand, it has been decided that the voluntary training units tendered, inspected and mustered in addition to those constituting the seven regiments will be organized into Depot Organizations. These organizations will in all their duties, obligations, training, etc., bear the same relation to the State as is borne by the 9th, 10th and 11th regiments and he in Militia Reserve regiments already referred to. They may not, however, for the present be armed.

"The transition of Voluntary units of Militia Reserve units removes them from the prior exclusive jurisdiction of the Council of Defense and places them exclusively under the jurisdiction of the Governor. All officers in the Reserve being commissioned by the Governor. With the completion of this organizational policy the State will have in or-

ganizations of National Guard and Militia Reserve armed and equipped 8,020, in Depot Organization Militia Reserve uniformed but not armed 11,000 total 19,020.

"By order, the provisions of the Military and Naval code and all orders, systems of training, instruction and discipline, etc. prescribed there under have been made to apply to the Militia Reserve organizations of the State. The enthusiasm and ready response on the part of the officers and men constituting different military organizations of the State, has been most gratifying. Men of large business and professional interests have responded to the call of the State and are undergoing in these different organizations the burden of painstaking training at a sacrifice of time and interest which speaks volumes. These organizations in the several parts of the State have had a wonderful local influence in the preservation of order and in their constant cooperation for all patriotic war purposes, have been the source of great benefit to the end in view."

Reserve Militia Companies

Companies of the first four Reserve Militia regiments are located in Chicago and its suburbs. The fifth and sixth regiments, however draw their men from central and north central Illinois as follows:

Fifth—Morris, Wheaton, Alton, Springfield, Carbondale, Gibson City, Decatur, Sterling, Elgin, Yorkville, Naperville and Milledgeville.

Sixth—Lincoln, Libertyville, Jacksonville, Sycamore, Moline, Dixon, Glen Ellyn, Lexington, Geneva and Aurora. Medical corps members reside at Rockford, Oregon and Springfield. Supply company is not yet organized.

Cities and towns having passed out of the Volunteer Training Corps but as yet without arms and therefore still in the depot brigade follow:

Springfield, Golden, Lawrenceville, Quincy, Mendon, Verona, Carthage, Hamilton, Basco, Clayton, Augusta, Mt. Sterling, Gardner, Joliet, Minooka, Barry, Perry, Meredosia, Emden, Chestnut, Green Valley, Metropolis, St. Charles, La Harpe, Rushville, Versailles, Warsaw, Plymouth, Paxton, New Canton, Lorraine and West Point. Approximately forty units in Chicago also are in the depot brigade awaiting transfer to the Reserve Militia when arms are available.

Among the cities and towns that have made application to the state council of defense for admission to the volunteer training corps are:

Hopedale, Christopher, Jewett, Murphysboro, Marion, Brighton, Murriss, DeKalb, Fairview City, Assumption, Peoria, Lockport, Buda, Saybrook, Charleston, Champaign, Chicago, Mattoon, Staunton, Ullin, Eureka, Sullivan, Chatsworth, Collinsville, Mansfield, Hinkley, Benld, Watseka, Kansas, Terre Haute, Carman, Cuba, Roodhouse, McClure, Albion, Virginia, Bluffs, White Hall, Maroa, Elmwood, Dallas City, East Saint Louis, Tallula, Genoa, Carrier Mills, Washburn, Momence, Lake Fork, Saybrook, El Paso, Pleasant Hill, Carterville, Centralia, Farmington, Flat Rock, Greenup, Ottawa, Manhattan, Camp Point and Streator.

Towns which have maintained their standing as Volunteer Training units but have not made application for admission to the Reserve Militia are:

Walnut, Wauconda, Coal City, Bellflower, Macon, Middletown, Kankakee, Union, Hartsburg, Atlanta, Beason, and Batavia.

U. S. SOLDIERS ARE AWARDED D. S. CROSS

"First Lieutenant Edward B. Hoope, marines, at Chateau Thierry, France, June 6, 1918, displayed coolness and courage in directing his platoon on the attack, during which he was badly wounded, but refused assistance until wounded men near him had been treated.

"Sergeant Major Carl J. Norstrom, marines, volunteered to rescue wounded men from field swept by machine gun fire and under fire of snipers. He continued this work with the aid of other volunteers until all had been rescued at this point. Chateau Thierry, June 6, 1918.

"Marine Gunner Henry L. Hulbert, marines, at Chateau Thierry, France, June 6, 1918, displayed extraordinary heroism during the attack on the enemy's lines, during which time he constantly exposed himself to the enemy's fire without regard for personal danger, thereby assuring the delivery of supplies.

"Gunner Sergeant Charles F. Hoffman, marines, at Chateau Thierry, France, June 6, 1918, displayed coolness and extraordinary heroism thruout the attack. During the counter-attack of the enemy, he armed with a rifle, charged and routed a group of machine gunners."

"Sergeant John Casey, marines at Chateau Thierry, France, June 6, 1918, altho wounded during the counter-attack remained with his group refusing to go to the rear or to accept medical attention until he secured that the enemy had retired and his men had properly dug in.

"Corporal Arnold D. Godbey, marines, at Chateau Thierry, France, on June 6, 1918, volunteered to rescue wounded men from the field swept by machine gun fire and under fire of snipers. He continued this work with the aid of other volunteers until all had been rescued.

"Corporal Prentice S. Green, marines, at Chateau Thierry, France, on June 6, 1918, when enemy counter-attacked his group having become isolated, he courageously charged the enemy with his bayonet and with the assistance of his comrades captured a machine gun crew, and repulsed the attack at that point.

"Private John Kukosk, marines at Chateau Thierry, France June 6, 1918, alone charged a machine gun and with the utmost bravery captured it and its crew together with an officer.

"Sergeant John Culman, marines, at Chateau Thierry, France June 6, 1918, while assisting a wounded man to the rear was himself wounded in the head but carried out his mission succeeding in bringing the other wounded men to the dressing station."

The commander in chief has also awarded the distinguished service cross posthumously to the following enlisted men of the marines:

"Gunner Sergeant Harold Todd, Detroit.

"Sergeant Bernard Werner, Corporal Charles E. Platt, Lafayette, Ind.

Corporal William Hansen, Portland, Ore.

"Corporal Benjamin T. Strin, Corporal Mearl C. Alexander, Sharon, Pa.

"Corporal Karl W. Loke, Corporal Francis J. Dock, South Boston, Mass, Corporal George A. Mincey, Agechee, Ga., (killed in action at Chateau Thierry, France, June 6, 1918. They gave the supreme proof of that extraordinary heroism which will serve as an example to hitherto untried troops.)

"First Sergeant Daniel A. Hunter, Westerly, R. I. He fearlessly exposed himself and encouraged all men near him altho he himself was wounded three times. He subsequently died of his wounds."

AMERICANS DISPLAY FINE FIGHTING SPIRIT

Show Proper Courage in Assisting Australians in Taking Hamel and Vaire Woods.

With the British Army in France, July 6.—(By the Associated Press).—American fighting spirit and courage as displayed in assisting the Australians in taking Hamel and Vaire woods, Thursday, has brought much commendation. Soldiers wounded in the fighting were glad of the opportunity to meet the enemy and the general in command of the American troops was pleased with the work.

"Our troops understood thoroughly when they went over the top that they were expected to do no less than any of their allies," said the general to the correspondent today. "Reports which I have received from the Australians indicate that our boys did all that could have been wished."

They had more than done their bit and he well knew it.

Later the correspondent visited casualty clearing stations to see some of the wounded Yankees, displaying a fine fighting spirit. British soldiers was a Chicago lad who had been shot in the leg. He was a blue-eyed, round faced youngster who looked strangely out of place among the veterans. He said he was 20 years old, but he was nothing more than a likeable boy with a winning smile. The correspondent introduced himself and told the little soldier how proud everybody was of the Americans. The boy's lips trembled but his eyes brightened.

"Are you from America too?" he cried as he eagerly put out a hand. "Oh I am glad of that."

He was lonely, homesick and hurt and wanted comfort from somebody who came from home. The soldier was quite despondent. The correspondent's hand but suddenly his eyes fastened on the correspondent's British uniform and a look of disappointment came to his face.

"You are not a Yankee are you?" he asked with a quivering voice. The correspondent assured him to the contrary. Instantly the boy brightened and throwing his arm over the correspondent's shoulder he exclaimed:

"I am mighty glad of that. I am glad you are a Yankee too."

Then he told the story of his part in the battle.

"We were all ready to fight to a finish. We knew there was trouble over there in No Man's Land. None of our boys cared for that but the day before the attack all the men in my company got together and shook hands and said 'good bye', for you see we did not know if we should meet again."

"I had worked hard to learn to be a good soldier for I wanted to be a credit to the folks back home. I guess I must have learned some things, for my commander gave me 24 of our chaps to lead over the top as corporal. And my men fought well."

"At midnight Wednesday we went forward and laid out in the open. Then about daylight came the barrage. It was just like a real Fourth of July celebration. The time came for the charge and we pushed out."

"A few of our boys were too anxious and they got so close to the barrage that they were hurt. My pal was struck by a shell burst."

Many Germans Surrendered

"We were advancing toward Hamel village and had to go over one slope, then down into a little valley and up another hill. We got along all right but down in the valley there was a lot of barbed wire that held us up some. I knew I got caught but not for long."

"Our men were killing a lot of Boches in the trenches and shell holes. A good many of the Germans were yelling 'kamerad' and surrendering."

"We had about reached our objective when something hit me in the leg and I went down. I tried to get up but my leg would not let me and I got dizzy. While I was on my knees I saw two Boches charging with fixed bayonets. I had the butt of my rifle resting on the ground, my finger on the trigger and I fired when they were about ten yards away. One of them fell dead but the other kept on coming and was on me before I could reload. Then I knew I had to fight him with the bayonet. So I got to my feet somehow and as he jabbed with his bayonet I parried and then swung my rifle to his head as hard as I could. The blow broke his skull. That's all I remember until I woke up and found a chum beside me. He had gone out and brought me back."

Just across the way was another Chicago corporal who had been wounded three times in the fighting about Vaire and Hamel woods. To compensate for his hurts he himself had killed seven Boches in fair fighting.

251,000 AMERICAN TROOPS ON FRONT

WASHINGTON, July 6.—American troops actually on the fighting lines in Europe about July 1 numbered 251,000, according to information given today by General March, chief of staff, and other members of the war council at their weekly conference with members of the senate militia committee.

As to the participation of the United States in the war General March had nothing to announce except that the first million men having been embarked for France, movement of the second million is being pressed.

The situation along the western front, he said, has developed into continual fighting" by Allied forces with complete success being obtained. The most important of these minor raids, from the American standpoint was the attack on Vaux on July 1st.

The attack on Vaux was carried out by the ninth and twenty-third infantry, supported by the twelfth, fifteenth and seventeenth field artillery, all of the second division, under command of Major General Omar Bundy. The success attained there has been completely consolidated, subsequent counter-attacks by the Germans failing to cause the slightest withdrawal from the territory occupied.

On the Italian front, the general said, the situation has come down to the complete occupation by the Italians of the southern bank of the Piave river, except for one very small sector. The point still held by the Austrians is three and one-half by one and one half miles, while the general Italian advance was over a nine-mile front.

MOVIE ACTORS ARE ESSENTIAL

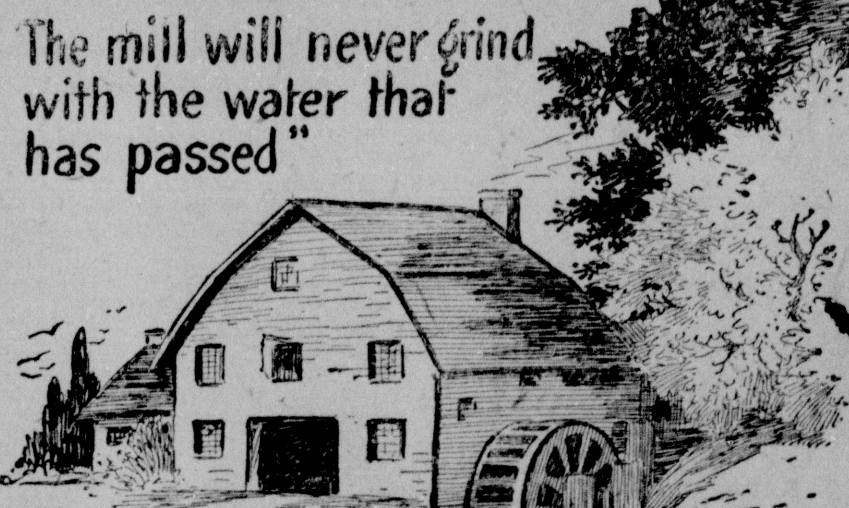

WASHINGTON, July 6.—Moving picture actors are being classified as "legitimate theatrical performers" in an order announced today by Governor Marshall General Crowder and draft boards are directed to consider such players, musicians, and all skilled persons employed in creation and presentation of moving picture productions as engaged in productive employment.

BRITISH CASUALTIES.

London, July 6.—British casualties reported during the week ending today reached an aggregate of 17,336.

BANK CLEARINGS.

New York, July 6.—The actual condition of clearing house banks and trust companies for the week (five days) shows that they hold \$26,493,240 reserve in excess of legal requirements. This is a decrease of \$145,478,440 from last week.

GIRARD WILL BE INDEES OPPONENTS

Strong Macopin Team Will Play Here This Afternoon—Lefty Lancaster Will Haul for Visitors.

Frank Smith's indees will have the Girard team for an opponent this afternoon at West Side park. The indees relieve they got all of the bad bull out of their systems on the fourth and will be ready to take the measure of the Macopin county boys. The visitors will have a battery well known to local fans. "Lefty" Lancaster will be on the mound. Lancaster is considered the very best southpaw in this section of the state and has had numerous offers to play minor league ball.

On the receiving end of the battery will be another old friend "Windy" Richardson, who has been playing ball around Girard and Virden for a number of years. Richardson in addition to being a good receiver is a hard hitter and likely to break up a game any time.

A MISSIONARY COMING.
J. K. Cunningham of Murrayville was in the city yesterday and said his brother, Rev. Alexander Cunningham and wife were on their way home from China and if they arrived according to schedule would be home some time in August as they desire to visit some of Mrs. Cunningham's people before coming here. They are on their regular furlough after some eight or nine years of work and will surely be cordially welcomed by a host of friends in this vicinity.

WAS ON STEAMER

THAT WENT DOWN
Egbert Hunt, son of Fire Chief and Mrs. Samuel Hunt was on the Steamer Columbia that sunk in the Illinois river near Peoria late Friday night. The young man is working in the plant of the Corn Products Company in Pekin and was among the excursionists. He sent a telegram to his parents Saturday morning that he was thrown into the river when the boat overturned and swam to shore. He gave no other particulars.

MISS DRAPER RESIGNS.

Miss Susan A. Draper who for so many years has so ably filled the position of piano teacher in the State School for the Blind has tendered her resignation from that position to become effective soon.

In tendering her resignation Miss Draper states that after these many years of service she feels that she should relax from the strenuous duties connected with the position and be free to enjoy travel and recreation.

Miss Draper has been the teacher of many piano pupils who are now scattered throughout the state and country, some of whom have made enviable reputations as musicians. These former students who know Miss Draper's real worth will regret to learn that she is leaving the position where she has rendered such valuable services for the blind.

Her term of service has extended thru the administration of a number of different superintendents of the school and they will recall the earnest, faithful cooperation that she has given each one of them.

Superintendent Woolston and the staff of teachers of the School for the Blind have expressed the fact that no one among their number would be missed more than Miss Draper.

NOTICE

The practice of throwing grass in the streets must be stopped as it frequently occasions the stoppage of sewers and endangers the health of the public in addition to the expense. Warning is also given to boys or others who lift manholes and drop in rubbish, that this practice must stop.

Emphatically Asserts Worn Out, Lagging Men Can Quickly Become Vigorous and Full of Ambition

7 A DAY FOR 7 DAYS

Don't blame the man who is perpetually tired; his blood needs more red corpuscles and his brain and nerves are craving for food. Given the right kind of medicine, tired-out, inactive, lagging men can quickly be made strong, energetic and vigorous.

Now a student of the nervous system who advises all men who feel worn out and lagging to get up ambition enough to take a regular job of a package of Bio-feren at once.

This is the new discovery that scientists are recommending because it is not expensive and readily puts vigor and ambition in people who despaired of ever counting to anything in life.

People whose nerves have been wrecked by too rapid living, too much tobacco or alcohol, have renewed their old-time confidence

and energy in less than two weeks. No matter how worn out you are, no matter how run down, nervous or tired out you are, get an original package of Bio-feren at once. Take two tablets after each meal and one before bed-time—seven a day for seven days—then one after each meal till all are gone.

Then if you still lack ambition; if your nerves are not steady and you haven't the energy that red-blooded, keen-minded men possess, your purchase money will be gladly returned.

Note to Physicians: There is no secret about the formula of Bio-feren, it is printed on every package. Here it is: Lecithin; Calcium Glycerophosphate; Iron Peptonate; Manganese Peptonate; Ext. Nux Vomica; Powdered Gentian; Phenolphthalein; Oleoresin; Capsicum; Kola.

VAUGHN WINS PITCHERS' BATTLE FROM DEMAREE

Cubs Defeat New York in Twelve Inning Game—Pittsburgh Takes Two Games—Other National League Games.

Chicago, July 6.—Jim Vaughn's single to right in the twelfth inning of today's New York-Chicago game ended a pitchers' battle between Vaughn and Demaree and gave Chicago the victory 1 to 0. In the twelfth Paskert singled, took second on Deal's out and third on Worthington's long fly. Killifer was purposely passed and stole second. Then Vaughn singled ending the game. Girl ushers made their appearance at Cubs park today for the first time. The score:

Scores Nine Runs in One Inning.

Cincinnati, July 6.—Schneider, after allowing one scratch hit in eight innings of the game with Philadelphia, today lost all control of the ball in the ninth and passed the first six men who faced him. Regan then pitched to two batters, one of whom singled while the other walked. Toney relieved Regan and allowed two hits, but got the side after nine runs had been scored, coming within one run of tying the score.

IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound

Oskaloosa, Iowa.—"For years I was simply in misery from a weakness and awful pains—and nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial."

Mrs. Lizzie Courtney, 108 8th avenue, West, Oskaloosa, Iowa.

Why will women drag along from day to day, year in and year out, suffering such misery as Mrs. Courtney, when such letters as this are continually being published. Every woman who suffers from displacement, irregularities, inflammation, ulceration, backache, nervousness, or who is passing through the Change of Life should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

Takes Double Header

Pittsburgh, July 6.—In the first game of a double header against the Boston Braves today, Pittsburgh Pirates did their best batting of the season so far, piling up seventeen runs in the eight innings and recording 21 hits. Rudolph was banished by Umpire Harp after the fifth inning for disputing decisions. Canavan took his place and was hit harder than his predecessor. The second game was more even. Mayer was invincible in the first game and took a large part in driving in runs.

FOR SALE SHEEP RAISING URGED
BY LIVESTOCK FIRM

Alexander, Conover & Martin In
Market Letter Give Timely
Suggestions With Reference to
Raising of Sheep—Livestock
Men In Concerted Effort.

The weekly market letter
issued by Alexander, Conover &
Martin of Chicago presents a re-
view of market conditions the
past week and also gives some es-
pecially timely observations
with reference to the raising of
sheep. There seems to be a well
concerted effort on the part of
livestock men to encourage in
every desirable way the keeping
of sheep on American farms. The
paragraphs from the report on
this subject are as follows:

"We must have heard the cry
for more mutton and mutton,
and the great shortage of wool
out the world. Wool cannot be
cheap again for many years. We
hear some talk of land getting
too high to raise sheep on; that
argument will not stand up. Eng-
land with land ranging from
\$500.00 to \$2,000.00 per acre pro-
duces six times as many sheep
as we do, and they are compelled
to do it because their lands are
so high. We had customers last
year whose breeding ewes paid
them over 200%.

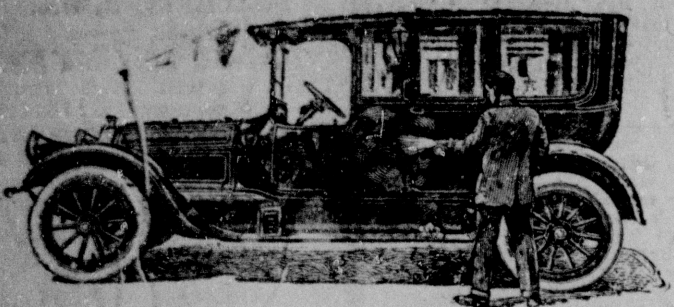

"If you haven't any sheep, we
know you must be thinking of
getting some, because of the
many reasons why, a good far-
mer cannot afford to do without
them, and if you have sheep,
then we are sure you will be
glad to get this letter because we
propose (if it is to your pleas-
ure) to keep in touch with you,
and aid you in any other way we
can.

A good breeding ewe pays a
dividend twice a year, in lamb
and wool; they enrich your land,
and for fertilizers they have no
equal. We don't know how many
you need. But we do know that
in sheep is much essential. Each
ewe in a load carefully examined
by us for teeth, sound condition
of udder, shearing qualities, and
right breeding. A pound of wool
will come near paying the ex-
pense of feeding a sheep a year.

We also buy thousands of
feeding ewes and lambs each
year, and this year when you
must want to conserve and uti-
lize every pound of feed you
have, sheep must be the answer;
they will clean up your stubble
fields, fence corners and waste
patches, and later you can turn
them in your corn, and they
will clean that up, with no
waste.

The present is not the time to
put up a new building. The gov-
ernment is prohibiting all new

Is there not a solution of the
building problem to be found
in the Federal academy building

longing to Illinois college? The
college wants a woman's dormi-
tory on the college campus. Why
not sell the academy

WHITE HALL PLANS PARK EXTENSION

Mayor Boehm Re-Organizes Park Board—Steps Will Be Taken to Increase Size of Park—First Threshing in Vicinity of White Hall Done By Joseph Glibler.

White Hall, July 6.—Mayor Boehm has reorganized the commissioners of Whiteside Park, and it now consists of T. J. Grant, R. B. Pearce and M. Lowenstein. Whiteside Park is the gift of Mr. and Mrs. Seth N. Griswold to the city of White Hall. For nearly two years some matters with reference to park extension have lain dormant and very few people have realized that plans to enlarge and further this beauty spot have been under consideration. Had it been possible to obtain adjoining property at a reasonable price, a library would have been erected on the park before this, and the new board faces the task of condemnation proceedings in order to secure the additional ground that will complete beautiful surrounding from every direction. This may take considerable time but the patience of Mr. and Mrs. Griswold has been equal to all such negotiations in the past and will continue to be so in the future, to the end that they may see while they are yet living a full realization of their dream of the fullness and beauty and grandeur of Whiteside Park, a park that affords rest and inspiration to scores and scores of people every day, and wins the admiration of the passerby. Every year the value of the park is being more forcibly emphasized, and the passing years of the future will continue to so record as long as White Hall has a citizenship that keeps abreast with the growing appreciation for what Mr. and Mrs. Griswold have already done for their city in the way of bringing out the better elements that inspire people to nobler ideals and right conduct and gratitude.

Threshing Begins
Joseph Glibler is the first to thresh wheat in this immediate vicinity. The first of the present week he threshed a crop grown on corn ground, and it produced 31 bushels to the acre. This is an exceptional case, however. Charles Dodgson who is now rounding out his 32nd continuous year as a threshman in this vicinity, says that the sample or berry is as fine as any he has ever seen, and that if the crop averages 30 bushels to the acre it will be the heaviest he has ever known here, adding that it is more reasonable to estimate it at about 25 bushels to the acre except in the rich lands of the Illinois bottom where the chop will yield much better.

F. E. Baker arrived home this week from Excelsior Springs, Mo., where he has been under treatment for a severe attack of rheumatism.

William Teter is moving back to White Hall from Patterson, after a residence of eight years in the northwest corner of Green county, and will engage in the tire vulcanizing business. He has managed the exchange of the Illinois Telephone Co. during his residence at Patterson.

A. W. Worcester, of Wood River was a visitor this week. E. C. Pearce, formerly assistant of the White Hall Sewer Pipe and Stoneware Co., reports the practical completion of the Hicks Fire Clay Products Co., at Springfield and that a plant for the manufacture of fire brick will be built at Springfield to employ about fifty hands, the clay being obtained from the valuable Hicks deposits, west of White Hall. The new company is capitalized at \$150,000, and the officers are: President and manager, W. C. Holmes, Springfield; Vice President, C. T. Hicks, Drake; Secretary, E. C. Pearce, White Hall; Treasurer,

Grandma Talks About Babies

Have large Circle of Listeners Who Profit by Her Wisdom and Experience.

In almost any community there is a grandma who knows Mother's Friend. Not only is she reminiscent of her own experience, but it was through her recommendation that so many expectant mothers derived the comfort and blessing of this famous remedy.

Mother's Friend is an external application prepared especially for expectant mothers after the formula of a noted family physician. It certainly has a wonderful effect in relieving tension brought about by expanding muscles, and is a most grateful encouragement to the woman awaiting motherhood.

The action of Mother's Friend makes the muscles free, pliant and responsive. When baby arrives they expand easily, and pain and danger at the crisis is naturally less.

Strain upon the nerves and ligaments is lessened and in place of a period of discomfort consequent dread, it is a season of calm repose and happy anticipation.

Mother's Friend enables the mother to preserve her health and natural grace and she remains a pretty mother by having avoided the pain and suffering which more often than otherwise accompanies such an occasion when nature is unaided.

Write the Bradford Regulator Co., Lamar Bldg., Atlanta, Ga., for their "Motherhood Book", so valuable to expectant mothers, and in the meantime do not by any chance fail to purchase a bottle of Mother's Friend from the druggist and thus fortify yourself against pain and discomfort. Mother's Friend should be applied night and morning with the utmost regularity.

J. C. McGrath, federal bank examiner.

Frank Campbell, of the firm of Ballou & Campbell, has made his fourth ineffectual effort to enlist for military service, the last time his effort being to enlist in Y. M. C. A. field work. His persistent attitude is commendable.

Rev. M. S. Metzler came over from Waverly the first of the week, and later joined the Christian church pleasure party in camp at Lake Mantanzas.

Innis Tunison, son of Mrs. George C. Tunison, has been incapacitated from harvest service by a broken leg, received by an unexpected movement of a gentle horse.

Miss Mabel Campbell is on her vacation from stenographic duty in the office of W. S. Corsa and is spending the time at Pekin and Jacksonville.

Capt. Donald G. Evans, instructor in aviation at the University of Illinois and a captain of the Illinois militia, is spending a few days at home. He will render a baritone solo at the Presbyterian church next Sunday morning.

Lee Price and Emmett Spangenberg left for Springfield Friday to enlist in the navy.

"The busiest man in town" is C. N. PRIEST, THE FORD MAN, taking orders for Ford Cars and Fordson Tractors, Eureka Motor Oils and Greases, RED CROWN GASOLINE, etc.

MAVERICKS

One hundred years ago, 'tis said The people feasted on corn bread, It looks now like a century hence, Bread will be made from a picket fence.

After seeing the processional pageant on July 4th, we have reached the conclusion that we have grown considerably in the past hundred years.

Service Extraordinary.
The young people of the Hillview church will serve ice cream between the bank and the hotel, if the weather is fair Saturday evening, July 6th. "Hillview" correspondent in Roodhouse Record.

Fresh eggs are said to be excellent for gas victims. We have seen some that were not fresh that would bring almost anything out of an unconscious state.

We wonder if it can be possible that the Roosevelt boys with the American forces in France are bribing General Pershing to send out fake reports about their being wounded.

Boost your city, boost your friend, Boost the club that you attend; Boost the street on which you're dwelling.

Boost the goods that you are selling; Boost the people round about you. They can get along without you. But success will quickly find them If they know that you're behind them.

Boost for every new improvement; Boost the man for whom you labor. Boost the stranger and the neighbor; Cease to be a chronic knocker.

Cease to be a progress blocker; If you'd make your Order better, Boost it to the final letter.

—The Sample Case.
Ima Bear of Decatur was registered at the Dunlap hotel the other day. Manager Foulk said she looked the part too.

Among other things Secretary Baker enumerates as having been purchased by the quartermaster's department since the war started are 2,567,000 hammers. We have thought sometimes that all of them were in use down in Washington.

Quite a flock of Sangamon county candidates for the legislature and senate have visited Jacksonville the past few days. However, Morgan county voters both republicans and democrats refuse to endorse over the various candidates as they know that they will never see them again after the election.

If there is anything worse Than a Georgia cracker, It surely must be A military slacker.

Street car fares are now straight five cents, says Chi Gamble in the Peoria Journal. They may be five cents but we question as to whether or not they are straight.

The wave caused by the launching of ships on July 4th is said to have caused considerable commotion in the Kiel canal and along the Rhine.

We went to see a wild west movie the other day. After watching the hero shoot forty or fifty shots without putting a cartridge in his revolver we got to thinking that if the government would supply its soldiers with guns like that there wouldn't be any Huns left in a few weeks.

Save your bread crumbs to make glycerine and help whip the Huns is the advice of a dispatch from Chicago. We are wondering who has any bread crumbs these days.

A dispatch from London says that evidence has been discovered that Shakespeare developed writers cramp late in life. Even with that handicap Bill had it on any other writer we ever heard of.

Speaking of rates in passenger and freight rates an exchange says, McAdoo is determined to pull the railroad out of the hole. If Mr. McAdoo will squeeze a little water out of the stock he may accomplish the same result.

Representative Jim Kirby of

Petersburg who is running for reelection to the legislature is the man who gained considerable notoriety because of his "high heel" shoe bill. Mr. Kirby claimed to have had the endorsement of the medical profession in this country and of the Academy of Science in Paris. What Mr. Kirby needed however, and didn't have, was the endorsement of the women of the state. If he would come out for full suffrage for women in Illinois perhaps he would make a bigger hit and let them take care of the high heel proposition themselves as they are the ones who have to wear them.

FEEBLE AGED WOMAN

75 Years Old, Weakened by Pneumonia—Vinol Restored Strength. Winchester, Va.—"I am a farmer's wife, 75 years of age, and pneumonia left me in a weak, run down condition, so I could hardly keep about and do my work. A neighbor brought me Vinol and it has built up my strength so fast that I think it is the best medicine I have ever taken."—Mrs. Jennie Chapman.

There is no secret about Vinol. It owes its success to beef and cod liver peptones, iron and manganese peptones and glycerophosphates the oldest and most famous body-building and strength creating tonics. For sale by all druggists.—Adv.

Let Music Brighten the Lives of Your Children

After all, it's not the school training but the home atmosphere which molds the child. Children brought up in a cultured home betray that fact during their entire lives. It leaves a lasting imprint.

A home with any claim to culture is a home in which good music is enjoyed and understood. A child whose interest in music is fostered will become a man or woman who possesses a resource which makes for lasting happiness.

You want to give your children every advantage. That is just one reason why you want

The New Edison

"The Phonograph with a Soul"

This wonderful instrument brings the best music right into the home; Re-Created by the world's greatest artists.

No matter where you live and your children can have the same musical advantages that you would possess if you could take them to New York for the opera season.

The New Edison does not merely imitate. It Re-Creates. No human ear can distinguish artist from instrument. The famous Edison tone tests have proved this, not once, but more than 1500 times.

Call at our store for a demonstration. And bring the children; they'll enjoy it too.

"With the Colors"

Letters of Interest from Jacksonville Boys in the Country's Service.

Dr. H. L. Griswold has received a letter from Dr. Hardesty who, at the time of writing, was at Camp Greenleaf, Fort Oglethorpe, Georgia, a short distance across the Tennessee and not far from Chattanooga. The doctor was in good spirits but said the duties were arduous. He is instructor in the medical department and is 48 years old and quite a Nestor among the other men of medicine. He says 95 per cent of them are under 45; 75 per cent under 35. They have long hikes so as to get used to marching, walking and moving quarters. The doctor said he was too busy to write much but hoped his friends would write him anyway. He has been ordered to transfer to Waco, Texas, and is expected to start July 15th. His family are visiting in Oklahoma and he hoped to enjoy a short visit with them while on his way to Waco.

Dr. Gibson Writes From France.
The following letter has been sent to the Journal by Edwin H. Gibson of Franklin, written by his brother, Dr. W. Stanley Gibson, now stationed at a base hospital in France. Dr. Gibson is a son of the late George C. Gibson, long time Morgan county resident, and has many friends and relatives in the county who will find his letter of great interest. He writes as follows:

May 23, 1918.
Dear Brother:-
Work is exceptionally light here now. I believe we have fewer cases in the hospital than at any time during the eight months. The more severely wounded cases have been transferred to the lighter hospitals in England, the lighter ones have been sent to convalescent camps. And with the lull in the fighting during the past few weeks our admissions have been relatively few.

Our leisure together with the fine weather, has given us an opportunity to make excursions into the country, and to indulge in swimming, tennis and baseball. One day last week I had the good fortune to be taken for an auto

Christmas parcel with her name and address enclosed, and when he acknowledged it, she knew the address to be the same as mine. She wrote him saying she had a cousin there, and she was along with her care for all kinds of cases—general cases—as in civilian life and wounded also.

I have worked very hard here in organizing the lace and merriment department to suit me and my ideas. The Commanding officer told me when I first came to go ahead and that I could have anything I wanted. I am looked up to by all the fifty officers of this place for what I have done—besides I have jollied them along and been good friends with all. Maj. P., the Commanding officer here, has been ordered away to England and his place taken by Lt. Col. J. P. The day after P. left, the Adjutant handled me the following letter which I will keep in my treasure box always but quote it in full now:

Headquarters First Air Depot
American Expeditionary Forces.
A. P. O. 731A, May 31st, 1918.
From: P., Major.
S. S. U. S. A.
To: Captain H. T. Carriel,
M. R. C.
Subject: My appreciation of your friendship and efforts at 1st Air Depot.

With Love,
Stanley.

With Capt. Carriel in France.
The following letter has been received by relatives of Capt. Howard T. Carriel, now with the American Expeditionary forces in France. Capt. Carriel was recently assigned to base hospital No. 66, which is a regular army hospital of over 1,000 beds and where all kinds of cases are cared for. His letter follows. It gives his family facts about his successful work and was not intended for publication.

1st Ann. Depot, of A. E. F.
June 9th, 1918.

Dear Folks:-
Presume you are in Jacksonville now. Was going to say I was there, too, but on second thought I do not for my soul can never be at peace anywhere but here until the Germans are down and out—No patched up peace but licked and an unconditional surrender.

Tell yesterday I received my orders to Base Hospital No. 66, and will leave here June 11th for that place.

The surgeon of the Advanced Section Air Service, was half in mind to protest my being ordered away from here. But he has become a good friend of mine and I persuaded him not to put anything in my way to keep me from a base hospital. He says I put you in charge (surgeon or chief of medical depot), of the biggest and best place in the aviation service in France. I have given you doctors for your staff you wanted and have ordered away one you did not want around. I have told you, Carriel, you can have anything you want and I have left you alone to run the place to suit yourself according to your own plans and ideas. Now you ask me to approve these letters preliminary to ordering you to some other place.

An enclosing a piece of linen of a German airplane brought down at Toul, France, near here, by Lt. Sewell, June 3rd, 1918. Lt. Sewell is an American aviator. Will write you soon from base hospital No. 66. Hope I like it there and they like me and my work. Have a lot of work to do transferring all the medical property on papers of this camp to my successor. So will cut this short and get to bed.

"Office of the Surgeon, 1st Air Depot, Z of A. A. E. F."
June 3 1918.

Dear Folks:-
I am enclosing an envelope so you can see how my mail comes addressed. The M. D. S. means motorcycle dispatch service.

Five Bochs planes have been over here today. Two just at supper time—they turned when they were just over this place and then went back again. Had a good view of them but they were up very high. Our aviators make them hard to catch and the Allies are more and more getting command of the air as they have of the sea. Our fighting Aero Squadrons are daily gaining experience and exhibit great daring. One man went up alone after 8 Bochs machines—brought one down, disabled one and scattered the others. Some one asked him how any one in their right mind would go against such odds and he replied that there was no more danger than in automobile racing. One of our boys could not bring down a Bochs in any other way and was afraid he would get away—he was a hated Bochs who had killed one of our most skilled and popular Major Aviators—so to make sure that he did not let this one get away, he being above, he drove down and rammed the German machine with his own which 3 times out of 10 meant sure death for both. But some how both got down, badly hurt but are still alive—the Bochs a prisoner.

Last week on three successive days three of the birds on this field had accidents. I sent one ambulance to them in case anyone was hurt. The story and cause of the accidents is too long to tell. One fine young fellow was killed and I went with the ambulance and took his body to the 1st Evacuation Hospital for embalming.

There had been some activity on the Sector that day and three operating teams had been working all day. I was there in the evening and in the operating room I visited they had a German on the table under an anesthetic with three bullet holes in his stomach. I neither pitted or hated him—one gets to look on war as just a big game.

Well today while in the office of my immediate superior medical officer, The Surgeon Advanced "Air Section" he showed me a letter—several letters—planned together—concerning me and my assignment to Surgical Staff of Base Hospital No. 66. The first letter was from the Clinical Division Headquarters who have advisory charge of all

American Base Hospitals, recommending me. The second was from the Head of Base Hospital No. 66 requesting that I be assigned to 66, a Regular Army hospital of over a thousand beds where they care for all kinds of cases—general cases—as in civilian life and wounded also.

I am glad that Edna and the children plan to visit South Bend. But you will find it distressingly quiet with the youngsters away. I had the paper signed which you sent me, and hope it is in good legal form. Everyone here is well. Jaros is still at a casualty clearing station. He will probably remain there some weeks, especially if things become active again, as we daily expect.

With Love,
Stanley.

to me writing a letter and he asked me where I was from, and I sure was glad and proud to say Jacksonville, Morgan county, Ill. The people sure don't overlook anything that they can do for the boys that are going away to camp. They all try to do too much, and our boys are all just doing great and the best bunch in camp. And sing, why George, you would think we were all birds. We are making a hit with everybody.

This man who is writing next to me (we are at the Y. M. C. A.) asked me if we had anything to eat and drink on the train and then I could just see those good dear kind canteen girls at the train serving coffee and boxes of good lunch. At this moment I felt so proud of those canteen girls that I could feel tears in my eyes, and when I told this young man about it he said he did not even have water. Again, God bless our canteen workers. Who wouldn't be proud of them? This boy came from Lawrence county with 22 coaches of men. He said, "You sure have good people where you live." George, I will take the liberty to ask you to thank the canteen workers thru the Journal for all of us, and the city in general for the great send-off. I will thank you in advance and will now close. Please give my best to all.

A HOME PICNIC.
Friday afternoon the manager and clerks of the Kresge 5 & 10 cent store planned their annual picnic and had made arrangements for a fine time but the rain prevented and they were partially disappointed but not wholly for they took their baskets of good things and repaired to the residence of the manager, George Edmunds, 706 West North street, where they unpacked their packages containing the bill of fare and proceeded to enjoy the contents in first class style. That part of the plan being disposed of, they turned their attention to the program which had various features, literary, musical and otherwise and had a very pleasant time.

A WORD TO THE WISE IS SUFFICIENT

The cotton goods market has been steadily advancing since the beginning of the World War and every indication created by acreage planted, positive and probable demand, and the opinion of those that are in the closest touch with the cotton goods industry point toward higher prices in every line of cotton merchandise. We have fully anticipated the requirements for the present season and as a result of this fact are in a position to give the buyers of SHIRTS values which no one can replace at the prices we are asking. FARM NOTES

To Inspect Spring Wheat
George B. Kendall, county agent, has arranged for an inspection party to the T. H. Buckthorpe farm Tuesday, July 9, at 5 p. m., for the purpose of looking at a field of spring wheat. Mr. Buckthorpe planted Marquis seed wheat which he secured from DeKalb County Crop Improvement association and the crop looks well. Mr. Kendall arranged for the inspection trip so that farmers interested might note the number of grains in the mesh, the stooking and general characteristics of Marquis wheat. A brief field talk will be given and Mr. Kendall will talk about the campaign for an increased acreage of wheat for 1919 and the best methods of increasing the yield.

Planting Corn After Wheat.
An unusual experiment is being tried by Borgelt Brothers of Mason county, who are planting 90 day corn in a field where they have harvested a crop of wheat. The wheat in this field was very early this year and as soon as it had been cut the owners listed the field to 90 day corn. They believe that if this is an average growing season and frost does not come earlier than usual there will be plenty of time for this corn to mature. The farm in question is not far from Havana.

Just received a shipment of Economy jar caps. Call early. Brady Bros.

FISHING SEASON OPENS

The fishing season is now open and according to the Havana Republican there are millions of them in the Illinois river and adjoining lakes merely waiting to be caught. The paper mentioned says:

"Fishing in a limited way has been going on continuously, but since the first of July it has assumed commercial proportions. The law now permits the use of certain kinds of net and those who make fishing a business are devoting their energies to supplying the market so it will be easier to conserve on flesh meat, as the government is urging on citizens to do. Why not adopt as a slogan: 'Eat a fish a day.'"

Keep cool and be comfortable which you can accomplish by ordering through phone or in person some of the delicious ice cream made by Mullenix & Hamilton.

"ALL WORK" TRACTOR. Burns Kerosene
The light "Allwork" Tractor is built for all around work in any season of the year. Powerful for heavy plowing—light enough to get out on wet land in early spring or on a soft seed bed for harrowing and seeding—plenty of power for belt work. Here is the practical light-weight, high-power farm tractor. Free from freakish features—runs on four wheels; carries the largest 4-cylinder engine we know of on any 3-plow tractor. It sets crosswise on the frame, thus giving direct gear drive—no bevel gears. Belt pulley is on direct line with crank shaft.

ALCAZAR COMBINATI'N COAL AND GAS RANGE
The Twelve-Month-A-Year Kitchen Range
IF YOU use a wood or coal range it makes your kitchen too hot in the Summer; if you use a gas or oil stove, it doesn't keep your kitchen warm in the Winter. Two ranges are a waste of money, for the DUPLEX ALCAZAR gives you two kitchen ranges in one.
It is made in two types: one burns wood or coal and gas; the other uses wood or coal and oil. No changes necessary to use the different fuels singly or in combination. The DUPLEX ALCAZAR is always ready to do its part in saving fuel costs, bettering cooking results and keeping your kitchen comfortable the year 'round.

THE DUPLEX ALCAZAR TWO RANGES IN ONE
The variety of styles in which the DUPLEX ALCAZAR is furnished is great enough to fit your exact conditions and needs. It is made in steel, cast iron and porcelain construction.
Let Us Demonstrate It To You.

WISE FURNACES
Furnace prices, like everything else, are advancing. We appreciated this fact and purchased a car early and can therefore make you a good price. Don't buy just any kind of a furnace; buy one that has been tried out by your friends and neighbors.

MURRAYVILLE LAD MADE GOOD RECORD

Francis Carlson Helps War Savings Society By Solicitation Work—Secured Pledges of \$1,472.25.

The Murrayville M. E. Sunday school War Savings society is justly proud of the record made by one of the solicitors, Francis Carlson, who is ten years of age. The society was organized April 1, 1918, and this lad thru his untiring efforts has secured pledges to the amount of \$1,472.25.

This list includes a maximum pledge of \$1,000 from his grandfather, J. A. Carlson. A picture

HANDLING CIRCUS A BIG RAILROAD TASK

Local Employees Must Take Care of Extraordinary Conditions When Barnum & Bailey's 89 Cars Arrive.

The arrival of Barnum & Bailey's circus always provides a problem for local railroad men. The big organization must be provided with room for its cars in the yards and its arrival and departure call for extraordinary activity to prevent interference with every-day traffic.

According to railroad men, the big show, which will be here Thursday, July 17 is using this season larger and heavier equipment than ever before. Eighty-nine double-length cars are required to transport this mammoth organization from town to town. This equipment, of course is the property of the circus itself, and only engines and train crews are required from the railroads.

Quite often, especially in the smaller towns, it is necessary to move all other freight cars out of the railroad yards a day in advance in order to make room for the coming of the circus trains. The Barnum & Bailey Circus is at present traveling in four sections. The first is known as the "flying squadron" and carries the commissary and the menagerie. This train is always the first to leave town at night and the first to arrive at the next stand in the morning. It is generally loaded and ready to depart by 10:30 p. m. The next two train sections carry the heavy red wagons, loaded with the canvas and other properties of the show, and on the last train made up almost entirely of Pullman cars, are the performers and the executive staff.

Not a single portion of the regular performance is omitted at night, as some people believe, in order to get the circus out of town. The circus wagons that the night showgoers often pass early in the evening are merely the wagons of the commissary department, which are loaded and ready to leave the lot immediately after the evening meal is served.

WILL SELL HISTORIC CHURCH PROPERTY

A notice in another column indicates that the trustees of Joy Prairie Congregational church have decided to dispose of the church, pipe organ, parsonage and barn. The church has been without a pastor for a number of years past and because of the decrease in membership it has been deemed advisable to disband the organization. As a matter of fact there are now only ten or twelve members remaining and it does not seem advisable to them to continue to maintain a church organization. Some of the members are now attending church in Concord and Chapin and others come to Jacksonville when the weather is favorable.

Rev. Mr. Butcher was the last regular minister of the church and the organization at one time had an important relation to the religious life of the community in which it was erected. However, losses of membership were the result of natural changes that time has brought. Many members moved away to distant states, others became residents of Jacksonville and still others have passed on. The trustees and members have decided it would be much better to dispose of the property for cash than it will be to simply permit it to deteriorate with passing time. After the property has been sold the membership will decide into what good cause the money shall be turned.

Mullenix & Hamilton will help make perfect your Sunday dinner if you order some of their ice cream; prompt delivery and courteous treatment.

A complete surprise was given Mr. and Mrs. J. C. Reynolds on the occasion of their wedding anniversary when Mr. Brown of Brown's Music store delivered to them a beautiful mahogany cabinet size Victrola, presented by Gates, Strawn, Miss Ellie J. Trabue, and the children of Mr. and Mrs. Reynolds; Mr. and Mrs. James B. Wood, Mr. and Mrs. Ed J. Reynolds. They were also generously remembered by the other relatives of the couple.

AGED ALSEY RESIDENT DIED SATURDAY

William Dr. Sr., Answers Final Summons at Age of 84 Years—Other Items of Winchester and Vicinity.

Winchester, July 6.—William Day, Sr., of near Alsey passed away at his home Saturday morning about four o'clock at the age of 84 years. Mr. Day was one of the prominent citizens of Scott county and had been a resident here for many years. He was a farmer, following this occupation practically all of his life. During late years, however, failing health and strength compelled him to retire and enjoy some of the ease due him after a life full of industry. He is survived by the widow, seven daughters, Mrs. Louise Bird of Alsey, Mrs. William Welch of Winchester, Mrs. Louis Roberts of Barrow, Mrs. William Steelman of Patterson, Mrs. Thomas Dunnegan of Alsey, Mrs. Harry Wilmington of Patterson, and Mrs. David Smock of Roodhouse, and two sons, William G. Jr., of Alsey and George of Roodhouse. Two sons and one daughter preceded him in death. Funeral services will be held at Alsey Sunday afternoon at 3 o'clock at the Baptist church.

George Ring of St. Louis is visiting his father, Jerry Ring and family.

Fred Owings arrived Saturday afternoon from Camp Dodge, Des Moines, Iowa, to visit his parents, Mr. and Mrs. George Owings.

Word was received Friday by Mr. and Mrs. John Dugan that their son Thomas was ill in Washington of diphtheria. Thomas went to Washington just a short time ago to accept a position as stenographer. Mr. Dugan left yesterday for the national capital to be with his son. His friends here will wish for him a speedy recovery from his illness.

The ladies of Oak Dale school district gave an ice cream social on the school house lawn Saturday evening for the benefit of the Red Cross. A short program was given. Two local numbers were given by a double quartette composed of Mrs. Gertrude Demereth, Mrs. Ada Lankford, Miss Louise Frost and Miss Martha Higgins and Messrs. Robertson, Phears, Heitzman, and Johnson, with Miss Lillian Sibert as accompanist. Mr. Fritz Haskell acted as chairman during the program. A recitation was given by James Tankersley, Rev. W. R. Johnson gave a short address. The refreshments were of an excellent quality and a neat sum was raised for the war fund.

Miss Vera Rickart is visiting in Jacksonville. Miss Geraldine Thomas of Roodhouse is visiting her grandmother, Mrs. Sarah Thomas.

Fordson Tractor demonstration will take place just as soon as the wheat is off the ground. Watch for the date. C. N. PRIEST, the Ford Man.

A GOLF AND RED CROSS ENTHUSIAST

Charles O. Pfeil of Memphis, Tenn., has returned to his southern home after a brief visit with his sister, Mrs. Caldwell, on Walnut street. Mr. Pfeil is a very enthusiastic Red Cross worker and some time since he arranged a match game of golf in Memphis which netted the sum of \$4,500 for the Red Cross. Before coming to Jacksonville Mr. Pfeil stopped in St. Louis and witnessed the exhibition golf game between "Chick" Evans, open and amateur champion of the U. S., and Warren Wood, on one side, with "Bobby" Jones, 18 year old "wonder", and Perry Adair on the other side.

Eberhard Anheuser paid \$55 for the privilege of being caddy to Evans and Mr. Pfeil paid a like amount for the privilege of accompanying Jones. The money from this match was for Red Cross benefit.

Mr. Pfeil, like other loyal citizens, is greatly interested in the war and his interest is increased by the fact of his friendship with Brigadier General James Harbord, who is in command of a division of marines in France. Mr. Pfeil and the general were classmates in college.
